Summary:

The last weeks progress can be summarized as follows:
1. **PDF Reports and Email Functionality**:
   On February 18, 2026 at 15:37:20, an email.py file was added to potentially send emails. The summary.py script also gained a .pdf function for exporting reports into PDF format.
2. **AI Model Updates**:
   Various AI model updates were made throughout the day. These included changing the AI model to a more precise or larger one (■■■2026-02-18 14:25:03).
3. **Prompt Enhancements and Model Changes**:
   The prompt was enhanced at various times, and the AI model was changed from a Chinese language model to an Ollama model.
These updates demonstrate continuous improvement in AI functionalities and user interface enhancements for smoother operations.
